Although there's lots more to love about Outdoor Adventures' Lake Shore Resort, a visit to enjoy the recent \$1 million renovation of the indoor pool is a must. The project consisted of rebuilding the entire structure and building a new pool, hot tub, and restrooms at this Premier resort in Davison, Michigan.

In addition to the new pool, the resort offers camping and cabins in a beautiful natural setting of nature trails and a spring-fed lake. There's lots to do with water including the Fun Zone Water Park with a lazy river and splash pad, indoor and outdoor heated pools, and the private lake with beach area and beach pavilion. Explore the lake in a variety of ways: rowboat, canoe, kayak, paddle boat, and/or swimming. Before and after being lakeside, enjoy the family-oriented clubhouse and pavilion, or the lounge for grown-ups.

Other onsite activities include putt-putt golf, children's playground, fitness rooms, horseshoes, tennis courts, basketball courts, shuffleboard, and volleyball.

Organized activities include outdoor team games, card parties, holiday dinners, arcades, and karaoke nights. If you're lucky enough to visit in winter, try ice skating on the lake.

There are lots of ways to meet old and new friends at the picnic area with grills. Enjoy an evening around one of the community fire pits, or grab a quick bite to eat at the snack bar, and stock up at the general store.

Although there's no reason you'd ever want to leave the resort, nearby you'll find an old-fashioned cider mill, riding stable, and plenty of shopping and dining venues. A little further away is Flint — just 10 miles east. Michigan's "Little Bavaria," Frankenmuth, is only 34 miles from the resort for a delightful day trip. Within driving distance, visit Crossroads Village, take a ride on the narrow-gauge Huckleberry Railroad steam locomotive or cruise Mott Lake aboard the Genessee Belle paddle-wheeler.

Come and enjoy this full-service resort offering tons of conveniences for the entire family, while maintaining the rustic appeal of the great outdoors.

RVing and camping in this area of Michigan is a glorious experience, but camping next to a river doubles the fun. The Rifle River was once a logging river but is now primarily used for recreation. **WEBSITE:** [outdooradventuresinc.com](http://outdooradventuresinc.com)

## Get in touch with nature at this beautiful resort

When Outdoor Adventures purchased this property in 1996, it was known as Sunshine Valley Campground. Although there's still sunshine in the valley, the name Wilderness is much more fitting. The resort is truly a place where you can get in touch with nature.

With hundreds of spacious campsites, plus cabinette and park model rental units, there's a place for you whether you're traveling with or without your RV. Once onsite you can choose from a variety of activities. Take a dip in the hot tub, go for a swim in the pool, throw horseshoes, or play shuffleboard, basketball, and badminton. In addition, there are many activities planned by the energetic staff. Go for a bike ride, check out the game room or the adult lounge, or meet up with friends at the community fire pit. On your tour around the resort, make sure to stop by and visit the bear. He's become quite the celebrity.

Although Wilderness Resort is located in Omer, you won't find a busy downtown because Omer is quite small. In fact there is a sign on U.S. Highway 23 that proclaims the town as Michigan's Smallest City. It's

actually the second smallest city in the state, as of the 2010 census, with a population of 313.

If you're fortunate to be in the area in spring, head to the nearby Rifle River to engage in the sport of sucker fishing. The river was once a logging river during the Michigan forest boom at the turn of the 20th century. Rifle River is now primarily used for recreation, and is a state-designated natural river, popular for canoeing and having the best white sucker runs in the state of Michigan.

Head east and enjoy the water of Lake Huron, the second-largest of the Great Lakes by surface area. Covering almost 23,000 square miles, it is the fifth-largest freshwater lake on earth.
