

# EMERALD COVE RESORT

A true destination resort for those who love adventure on the water

If one mile of sandy beach sounds heavenly to you, then head your rig to the long blue strip of water that separates California and Arizona. That dreamy beach fronts the California side of the Colorado River—a river that provides exciting water sports all year-round. That’s where Emerald Cove Resort is located. Being on the river allows Emerald Cove to offer a bountiful list of water activities for children and families. You can rent a watercraft and have it brought right to you at the triple-wide boat ramp. If the river doesn’t call you, then enjoy two large covered swimming pools and a children’s wading pool.

But there’s more to the resort than water. As one of the largest RV parks, Emerald Cove offers scheduled events in the clubhouse, a country store and nearby golf courses and casinos. Notice the clean and inviting facilities, including a pool bar and grill, showers and laundry for your convenience to assure a relaxing experience. If you want to go to the beach area, rent a golf cart and load your ice chest, etc., and head straight to the water.

Don’t hesitate to bring the whole family because the resort’s River Rats Kids Club is the place to drop off your kids and grandkids for a day of fun with supervised activities. This allows parents or grandparents an opportunity to relax on their own and be guaranteed their kids are safe and having the time of their life.

Many of the resort’s RV sites overlook the beautiful Colorado River and sit right on the resort’s one mile of private white sandy beach.

Off-site, visit Lake Havasu City, Parker Dam, and Quartzsite—just 30 miles away.
