

# GETTYSBURG BATTLEFIELD RESORT

## Come for the history; stay for the amenities

There are two great reasons to visit Gettysburg, Pennsylvania. The first is to tour the historic Gettysburg Battlefield and the second—not the least important—is to check into the Gettysburg Battlefield Resort, a fabulous Coast Premier Resort.

Most everyone knows the history of the battlefield, but if you haven't visited Gettysburg Battlefield Resort, you're in for a treat as you learn more about one of Coast's Pennsylvania gems.

According to Barbara Vos, assistant resort operations manager, there are three amenities that her guests brag about. "Our store is large for resorts and we get many compliments on it," she says. "We add new products all the time." Also mentioned is the big beautiful farmhouse lodge. "Our bath houses are second to none," says Vos. "They are equivalent to hotel bathrooms. They're climate-controlled, tiled, and decorated, plus auto hand-washing sinks, lights and fans." Most bathrooms have enclosed stalls with sinks, toilet and shower.

Other onsite amenities include a snack bar with Hershey's hand dipped ice cream, laundry facilities, Olympic-size swimming pool, nature trails, playground, shuffleboard, beach volleyball and horseshoes. Future plans are to add full hookups at every site and the addition of 20-plus sites.

Some visitors never want to leave. Bev and Michael Lam sent this message to the resort after their recent stay. "We can't pry ourselves away from Gettysburg Battlefield Resort unless we run out of food or some other life-sustaining necessity."

If you do pry yourself away, take advantage of the proximity of the Gettysburg Battlefield where one of the most significant battles of the Civil War was fought on July 1-3, 1863.
