

MOUNTAIN LAKES RESORT

Every site is a pull through at Mountain Lakes Resort

Visitors to northwestern Alabama often comment about the beautiful views across the rolling hills found in this part of the country. Combine that with a western view across the 68,000-acre Guntersville Lake and you've got your own brand of paradise when staying at Mountain Lakes Resort in Langston, Alabama.

Also imagine that you've pulled into the resort and discovered that all the RV sites are pull throughs and provide ample room for you to get comfortably situated. Come play hard or just relax and enjoy the peaceful sounds, clean air, and comfort of the natural surroundings. You'll enjoy the sun rising over the hills behind you and setting across the water in front of you.

Stay in touch with family and friends with the resort's free Wi-Fi. If you've come to get away from it all and just chill at your spacious site, that's wonderful. But we imagine that you'll be tempted to join your friends or meet new ones while enjoying the variety of activities which include the indoor and outdoor pool, game room, and miniature golf. Have fun on the basketball and tennis courts and let your children run wild on the playground. Tired of cooking, take the family to

the on-site restaurant.

From Mountain Lakes Resort, you can also fish from one of their fishing piers and boat docks on Guntersville Lake—one of the country's premiere bass lakes. Put your toes or more into the water at the lake's swimming beach or launch your boat at the resort's boat ramp.

There are lots of other activities to keep you busy if you're not an angler. Explore the beautiful two-story clubhouse with a kids' recreation room. Pitch horseshoes or take on any comers on the volleyball courts. Sit by or get into one of the two swimming pools—outdoor and indoor.

At nearby Lake Guntersville Resort State Park, thanks to conservation efforts Alabama's nesting bald eagle population is increasing and Guntersville has become a focal point of Eagle Awareness in the state. Each year, on select weekends in January through the first weekend in February, the park's Eagle Awareness programs entertain and educate the public about the once endangered national symbol.
