

# SYCAMORE LODGE RESORT

This is a love story, with nature, golf and RVers all playing key roles. The stage for the story is gorgeous Sycamore Lodge Resort, just minutes from the historic Village of Pinehurst, North Carolina, home of one of the world's finest golf resorts. The destination is one of nature's most striking displays. What better person for the starring role than you?

Sycamore Lodge is a luxury RV resort like none other. From the moment you arrive, you'll see how special it is. The landmark members' clubhouse was lovingly hand-built at the turn of the 19th century with trees timbered from the property. Known simply as the lodge, it contains many beautiful features, from hand-built fireplaces in each room to the original wood-burning stove in the kitchen. Imagine yourself relaxing in the lodge, playing your role as a pampered guest.

The same pride that created the lodge is evident throughout the park, which provides the finest in private campground accommodations and facilities in North Carolina. Amenities include wireless Internet in the lodge, terraced gardens leading down to the swimming pool and hot-tub complex, a bass-stocked lake, pedal and fishing boats, canoes, mini-golf, nature trails, a children's playground, horse-shoes, cabins, a state-of-the-art bathhouse and much more.

It's all been built to attract the affections of RVers from all over the country, and it works.

But nature will not be outdone. The RV campsites at Sycamore Lodge Resort stand on 194 acres landscaped with beautiful pine, oak, sycamore and dogwood trees and

magnificent magnolias sprawling across the grounds. The endangered red-cockaded woodpecker also calls this resort home.
